Replit Proof of Use

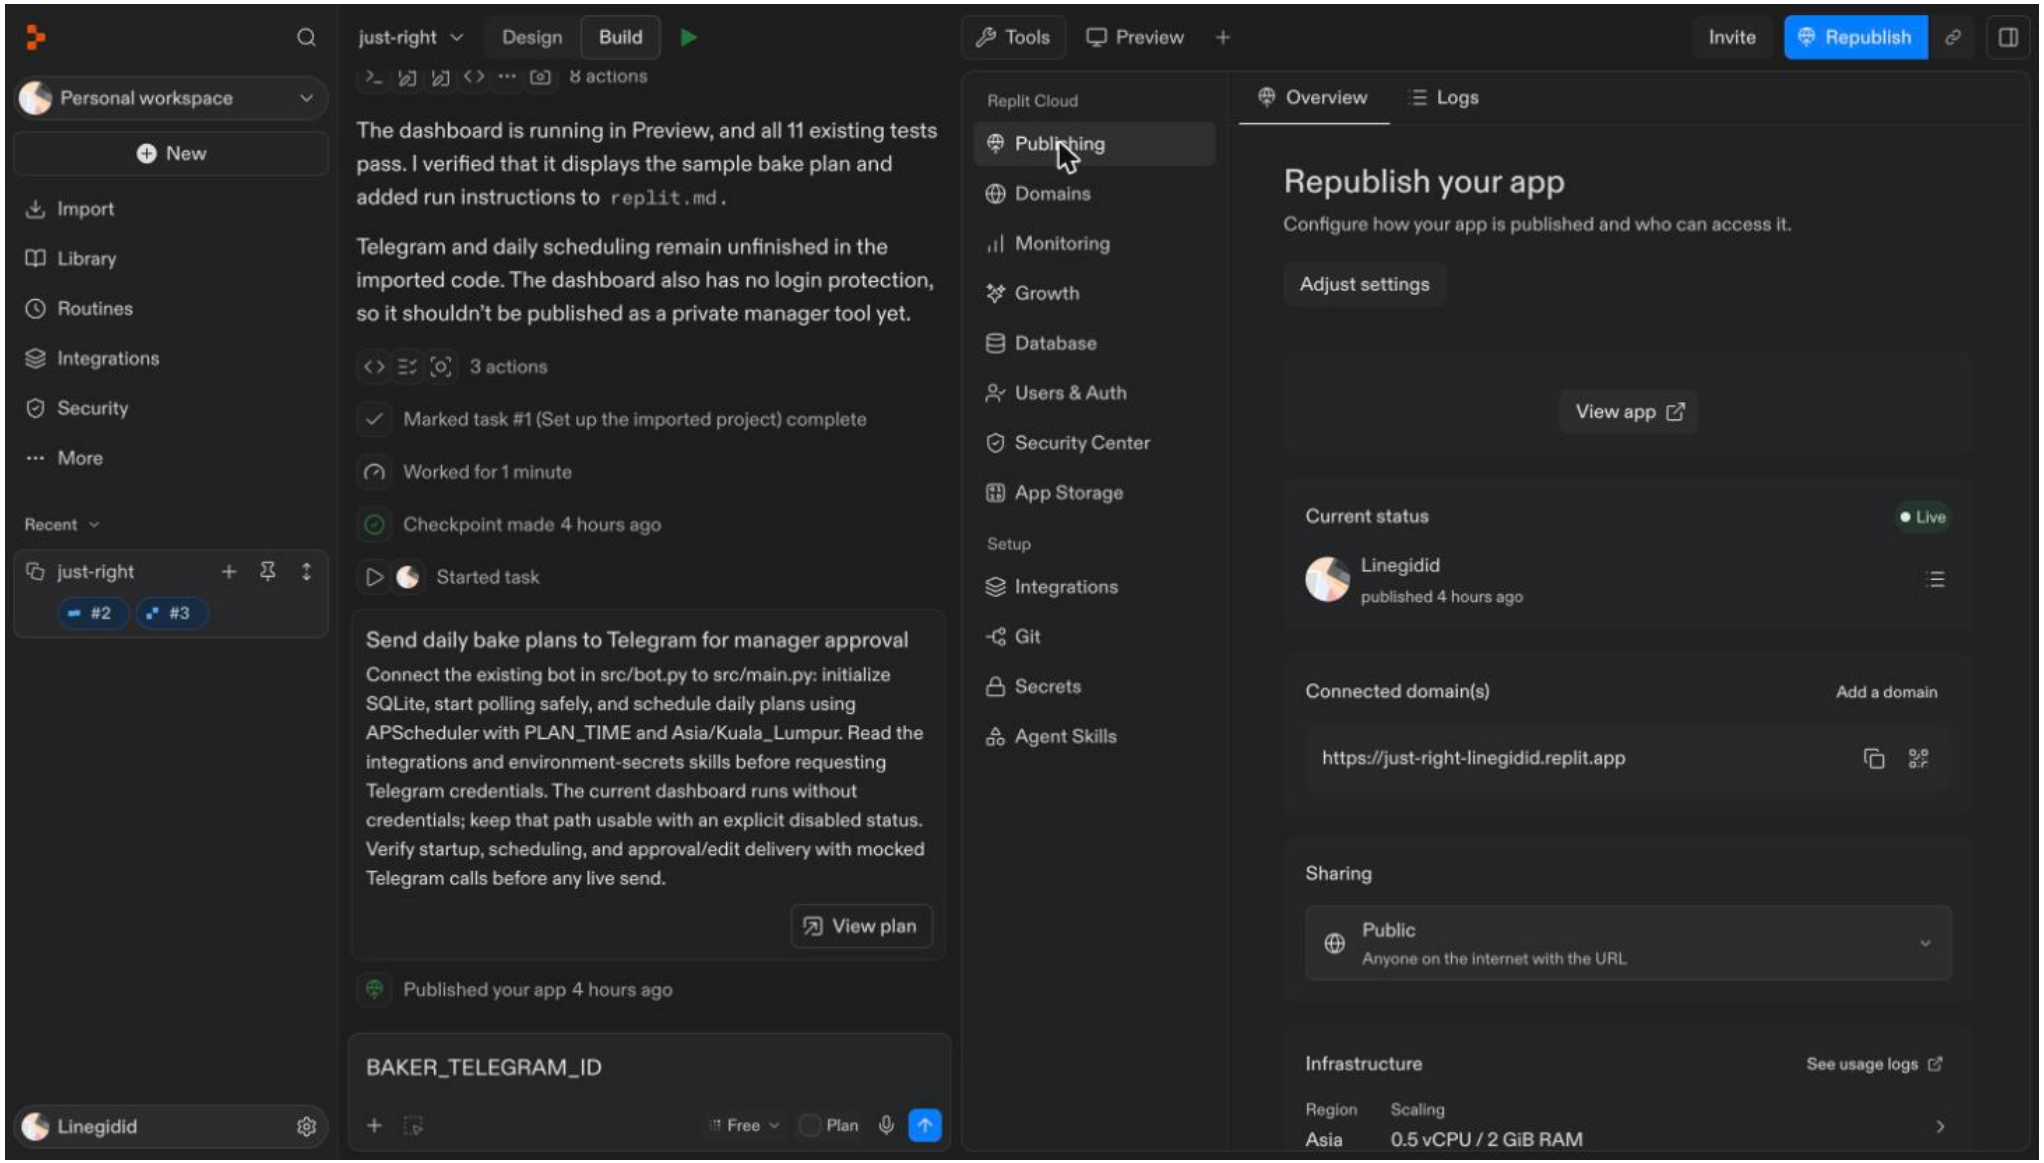

Team: Beginathon | Project: Just Right | SDC Hackathon 2026, Domain 2

Replit project: https://replit.com/@linegidid/just-right
Live deployment: https://just-right-linegidid.replit.app
Telegram bot: https://t.me/justright_bakery_bot
GitHub repository (synced with Replit): https://github.com/derkglova/just-right

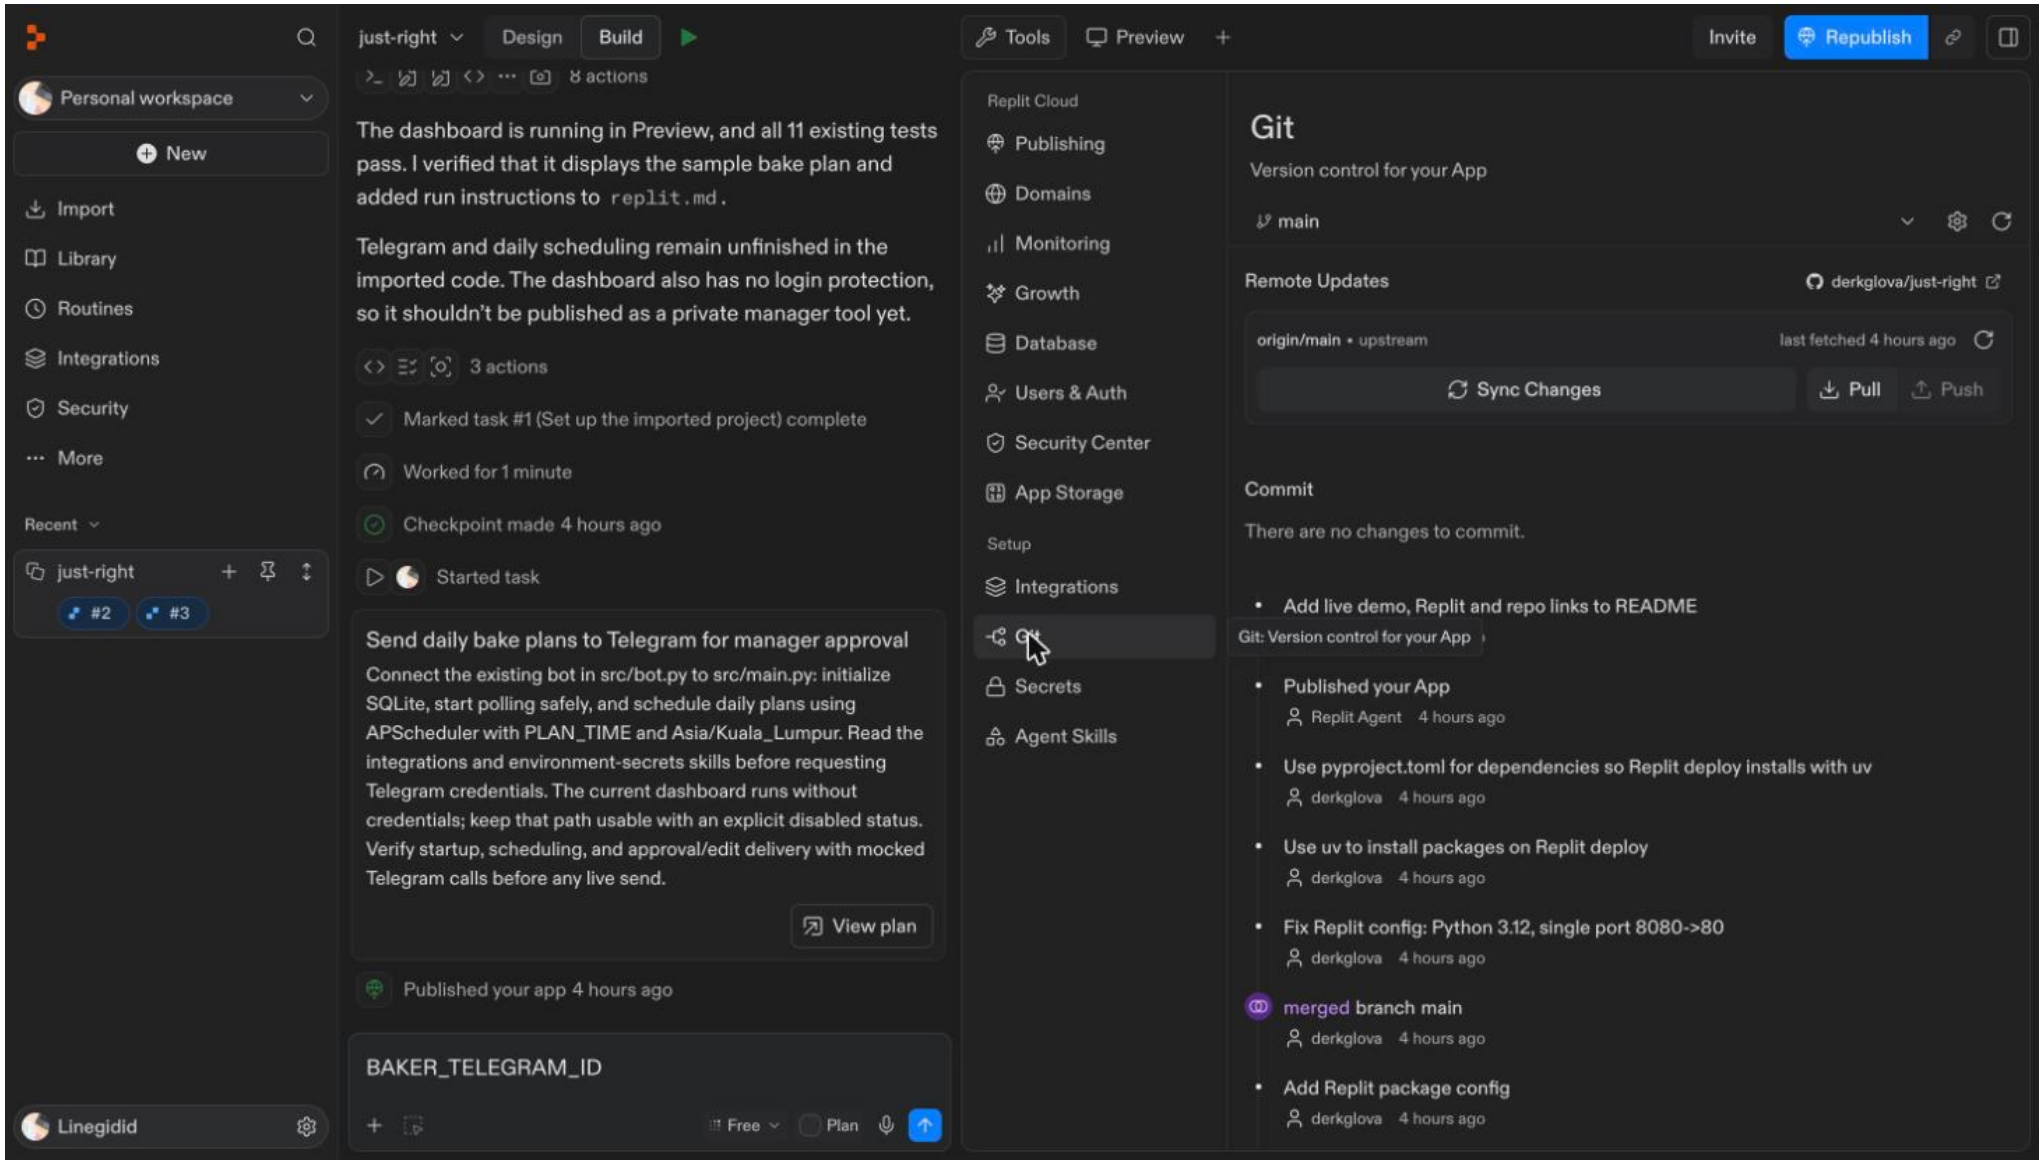

How we use Replit: Hosting as Reserved VM, Asia, 0.5 vCPU / 2 GiB RAM; Secrets; Git.

Screenshots taken 23 October 2026 from the team's own Replit account (Linegidid).

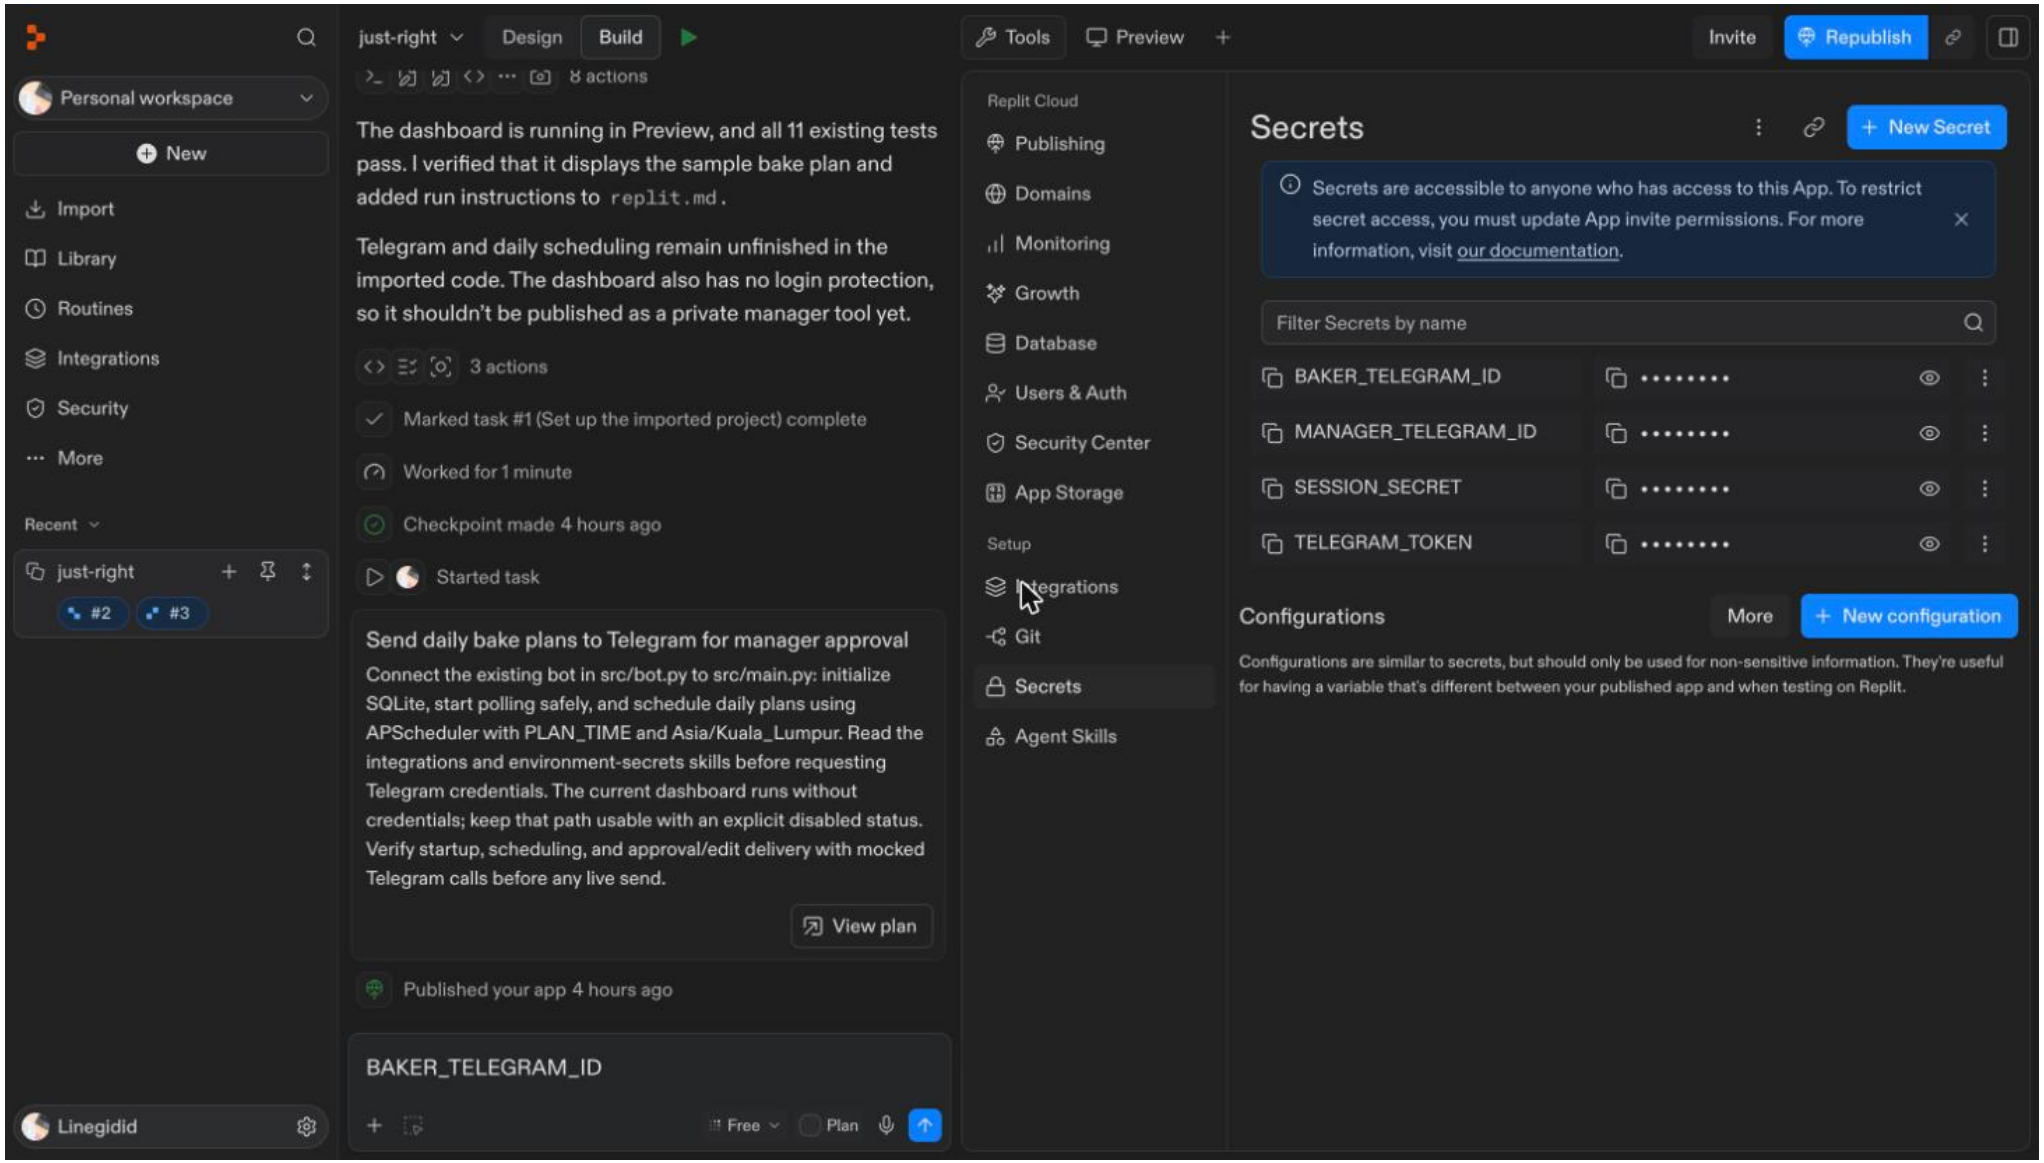

1. Publishing: deployment is Live at just-right-linegidid.replit.app

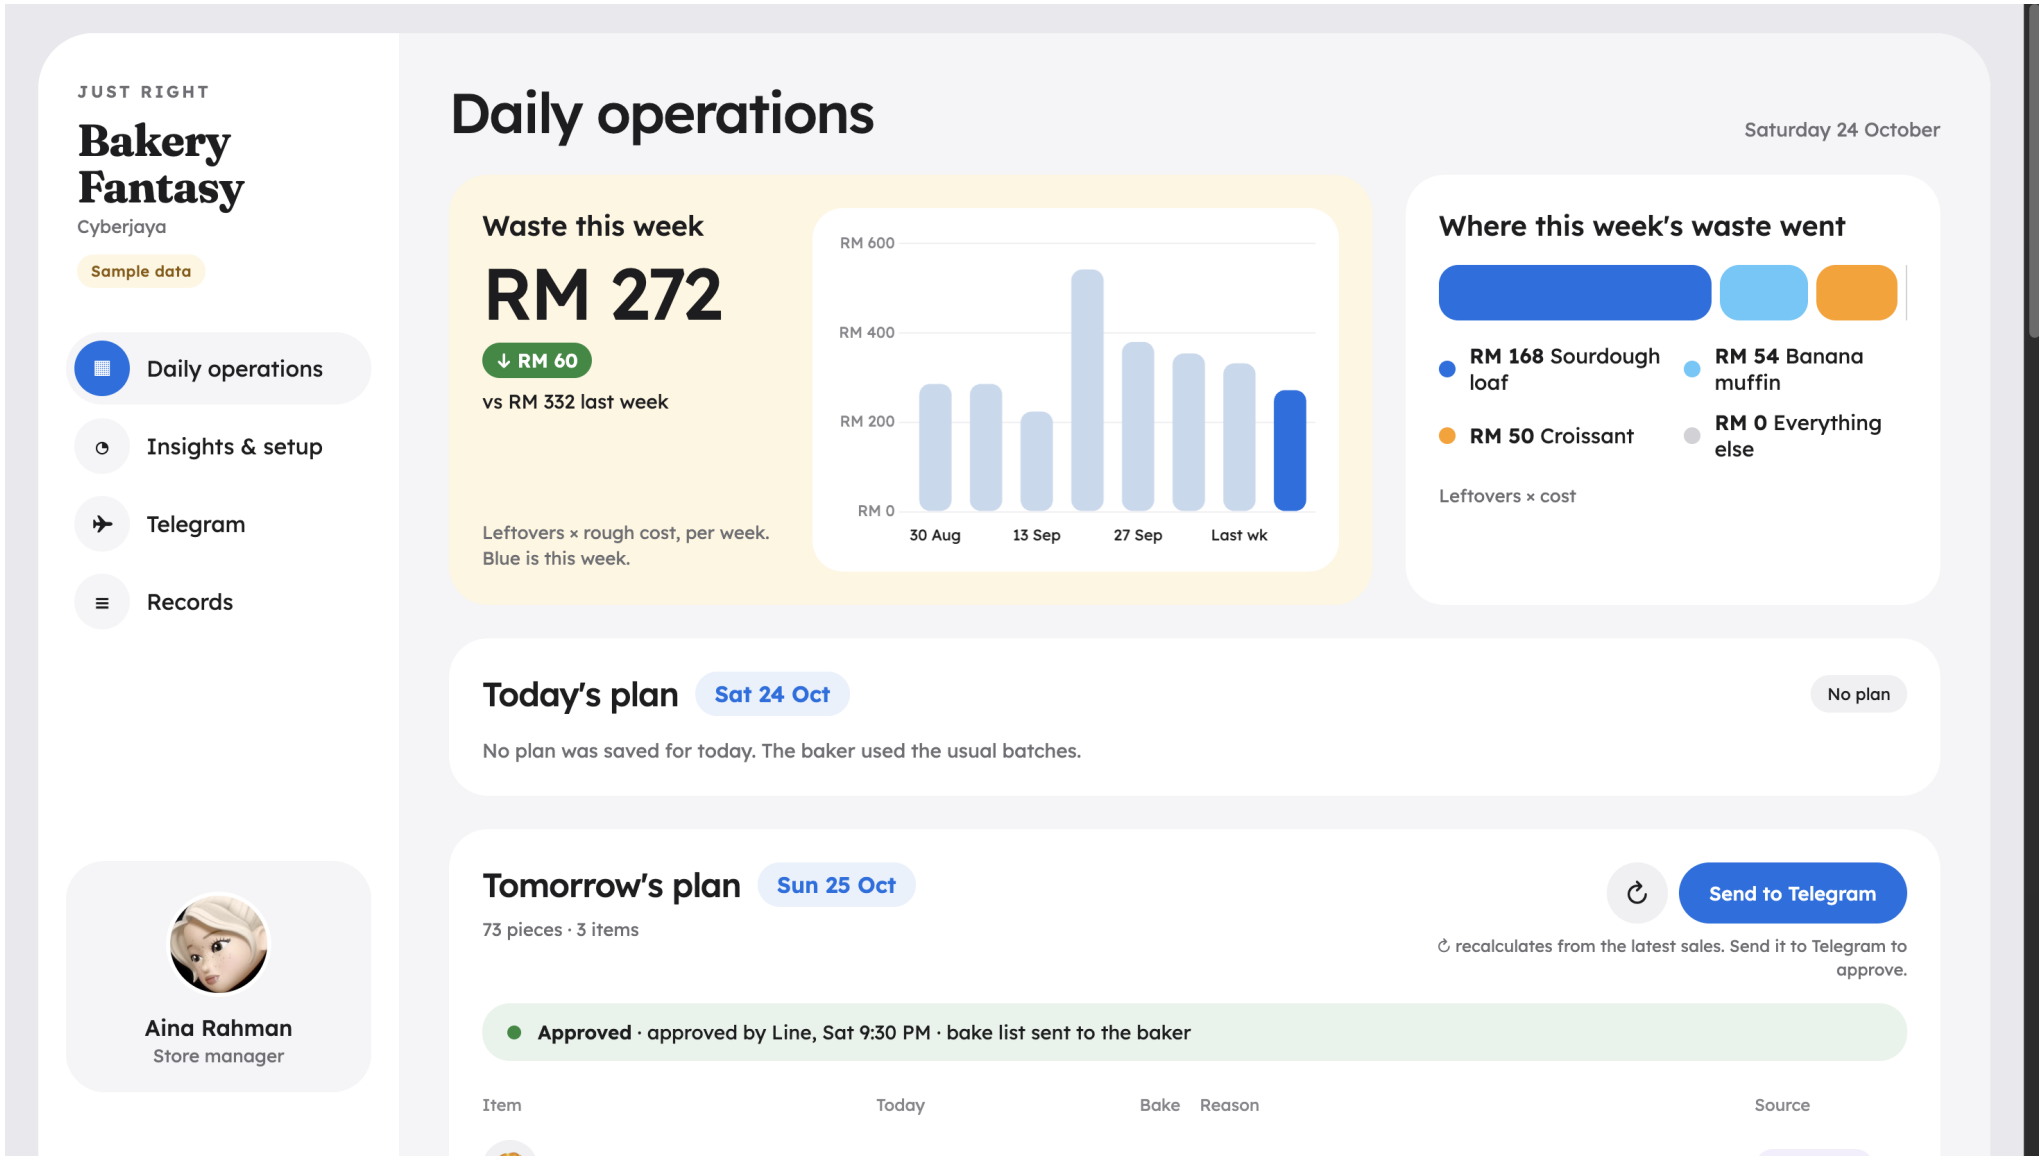

2. Git: Replit project connected to GitHub derkglova/just-right, with commit history

3. Secrets: Telegram token and IDs stored as Replit Secrets (values hidden)
